Dear Chairman Pai,  
I write to support the Comments of the Cable Act Preservation Alliance ("CAPA") and to disapprove of the proposals and tentative conclusions set forth in the FCC's September 25 Further Notice of Proposed Rule Making in Implementation of Section 621(a)(1) of the Cable Communications Policy Act of 1984 as Amended by the Cable Television Consumer Protection and Competition Act of 1992, MB Docket 05- 311.

Cambridge's community media (CCTV) is an extremely valuable resource. CCTV provides valuable afterschool programming to youth, computer literacy classes to seniors, and media production classes to the general public. In addition to homegrown and produced programming, CCTV also broadcasts events around Cambridge, from panel discussions about issues affecting the city to city council election debates, that make participation in local government more accessible to everyone in Cambridge. I'm so glad that CCTV is a resource in my community and provides all that it does – I genuinely cannot imagine how Cambridge could begin to fill the hole that would be left without CCTV. For Cambridge and for all of the communities that rely on and work closely with their local media, I ask that you continue to support community media centers.

Sincerely,  
Malcolm Sullivan
